

LANCE AARON B. SANSAET

Pasay City, Metro Manila | 09566734339 | aaronsansaet07@gmail.com

EDUCATION

FEU Institute of Technology

Bachelor of Science in Information Technology

Specialization in Web and Mobile Application Development

Manila, Philippines

August 2022 – Expected Graduation: September 2026

WORK EXPERIENCE

FEU Institute of Technology (ITSO)

Junior System Developer Intern

Manila, Philippines

Dec 2025 – Jul 2026

- Developed internal web applications using PHP, Symfony, MySQL, HTML, CSS, and JavaScript, improving institutional workflows.
- Implemented frontend interfaces, backend services, database structures, and REST APIs, delivering scalable and reliable applications.
- Tested, debugged, and documented software modules, improving application stability and reducing deployment issues.
- Collaborated with developers and stakeholders to implement new features and resolve technical issues within project deadlines.

PROJECT EXPERIENCE

Research Proposal Management System

April 2026 - July 2026

- Developed a research workflow system with role-based approvals and document management, streamlining proposal processing.
- Implemented notifications, audit trails, dashboards, and reporting, improving monitoring and transparency. Built secure approval workflows and administrative features, increasing institutional efficiency.
- Built secure approval workflows and administrative features, increasing institutional efficiency.

Admissions, Registration, Information, and Enrollment System (ARIES) –

Dec 2025 - March 2026

Admissions Form - Digital University Students

- Developed core admissions modules, including applicant registration, profile management, document upload, and digital application submission, streamlining the university admissions process.
- Implemented application status tracking, data privacy consent, and electronic signature features, improving application security and user experience.

MENTALEASE: A WEB AND MOBILE SYSTEM FOR DIGITAL MENTAL HEALTH SUPPORT AND PERSONALIZED STRESS MANAGEMENT WITH AI EMOTIONAL SUPPORT FOR SANDA DIAGNOSTIC CENTER (Capstone Thesis)

March 2025 -Nov 2025

- Developed a full-stack web and mobile mental health platform using Laravel, React Native, FastAPI, Supabase, and OpenAI for Sanda Diagnostic Center, digitizing patient services and mental health support.
- Implemented an AI-powered emotional support chatbot, DASS-21/PSS assessments, and mood tracking to provide personalized stress management and emotional insights.
- Designed a role-based management system for Administrators, Patients, Psychometricians, Cashiers, and Help Desk staff, improving operational efficiency and secure access control.

ADDITIONAL

Technical Skills:

Networking: TCP/IP • Network Fundamentals • Routing & Switching • Basic Network Troubleshooting

Programming & Web: PHP • JavaScript • TypeScript • Python • HTML • CSS • Symfony 7 • Laravel • React Native (Expo) • MySQL • Supabase • Git • REST APIs

Certifications: Cisco: CCNA (Introduction to Networks, Switching, Routing & Wireless Essentials, Enterprise Networking, Security & Automation) • DevNet Associate • CyberOps Associate • CCST Cybersecurity **Certiport:** IT Specialist – HTML & CSS • IT Specialist – Python **Professional:** Introduction to Modern AI • PMI Project Management Ready
